Opsi funkcionalnosti na index.html stranici

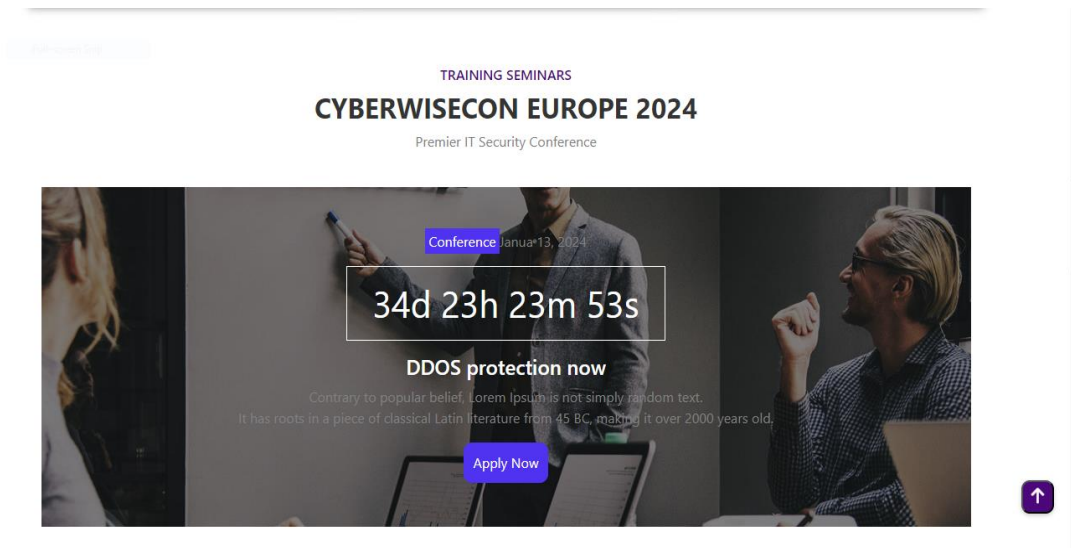

-Dinamicki unet navigacioni meni

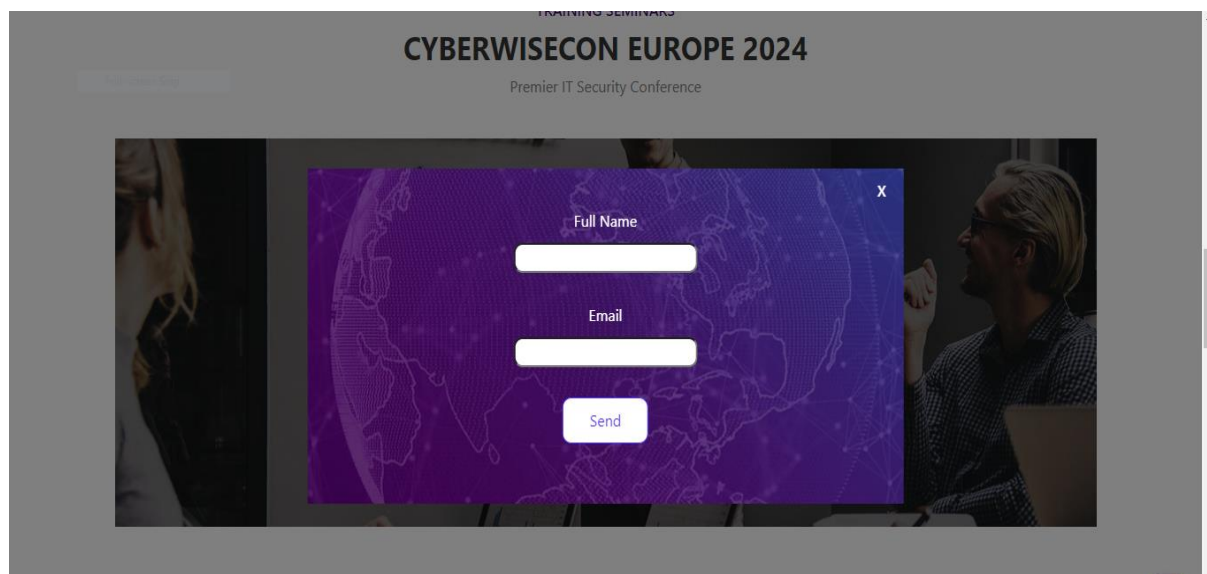

-Implementiran je dinamički slajder koji se postavlja pri učitavanju stranice. Koristi jQuery za olakšano upravljanje DOM-om i interakciju sa događajima. Slajder automatski menja sliku na svakih 5 sekundi.

-Dinamički ispis sekcije our services. Funkcionalnost pomoću jQuery biblioteke za toggle klikom na "Read more" izbacuje se sakriveni text i menja u "Read less" klikom na njega vraća se u prvobitno stanje.

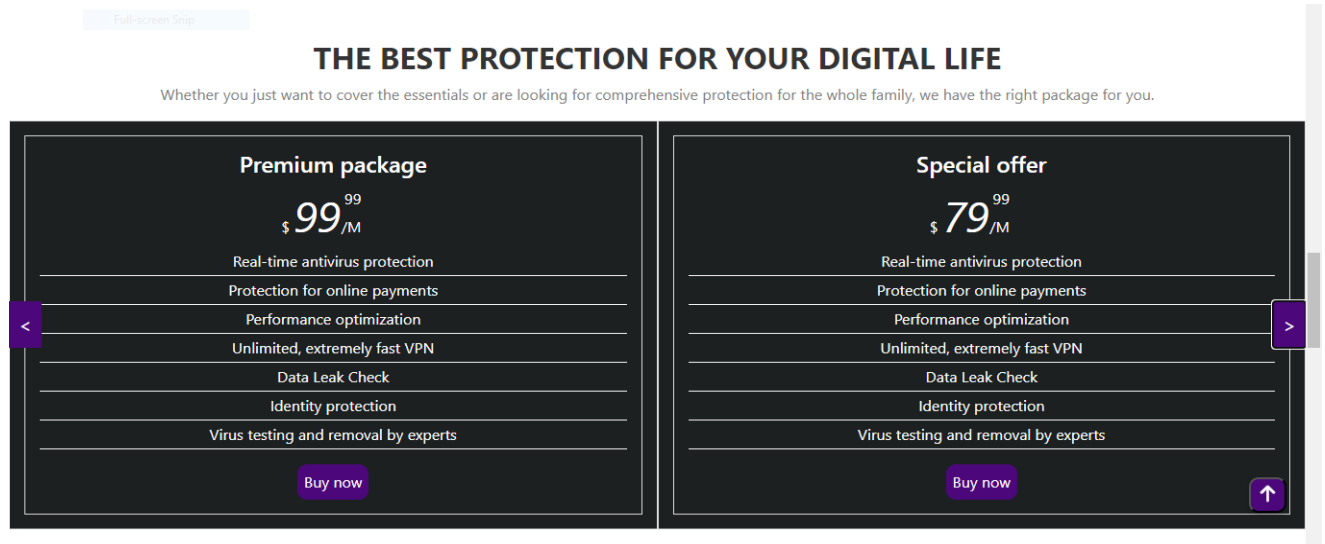

-Funkcij updateCountdown postavljene je datum (jan 13, 2024) do kojeg se vrši odbrojavanje, odbrojavanje se automatski azurira svaki sekund. (korisceni su metodi date, setInterval).

-Klikom na dugme Apply now otvara se forma koja ocekuje unos imena i prezimena kao i email adrese, ukoliko se ostave prazna polja i klikne sa strane crveni slovima ce se ispisati da polje ne sme biti prazno, validacija forme je obradjena regularnim izrazima te ako se unese pogrsno ime, ili email klikom na dugme send crvenim slovima bice ispisano kako treba da se unesu podaci da bi bili ispravni. Ukoliko su podaci uspesno uneti korisniku ce se pojaviti text "You have successfully submitted your application" uokviren zelenom bojom, forma se napusta klikom na x u desnom

gornjem uglu. (koristi se jQuery za manipulaciju DOM-om, sakrivanje/prikazivanje elemenata i validaciju forme, korišćenje jQuery biblioteke.)

-Dinamicki ispisan slajder za prikazivanje paketa za kupovinu, klikom na desni taster prikazuje nova dva diva, klikom na levi taster vraća na prvobitno stanje.

FILL OUT THE FORM TO PURCHASE OUR SERVICES.

Name	Last Name

Choose a package	Card <input checked="" type="radio"/> PayPal <input type="radio"/>
Buy	

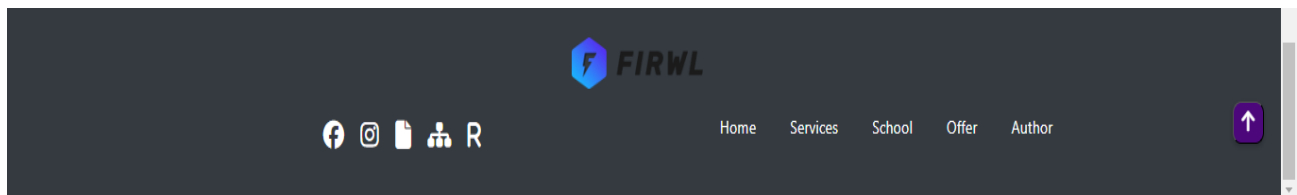

-Glavna forma za kupovinu određenog paketa: Forma je dizajnirana za unos informacija o kupcu i odabir određenog paketa.

-Validacija forme pomoću regularnih izraza: Koriste se regularni izrazi (**regexValidation** funkcija) za proveru ispravnosti unesenih podataka. Ako korisnik unese podatke koji ne zadovoljavaju kriterijume (npr. neispravno ime, adresa, e-mail itd.), pojaviće se odgovarajuće poruke o grešci.

-Prikazivanje uputstva za popunjavanje: Svako polje ima uputstvo (primer) koje se prikazuje unapred kako bi korisnici znali koji format podataka se očekuje.

-Dinamičko prikazivanje grešaka: Ako format unosa nije ispravan, greške se dinamički prikazuju crvenim slovima kako bi korisnici odmah videli gde je došlo do problema.

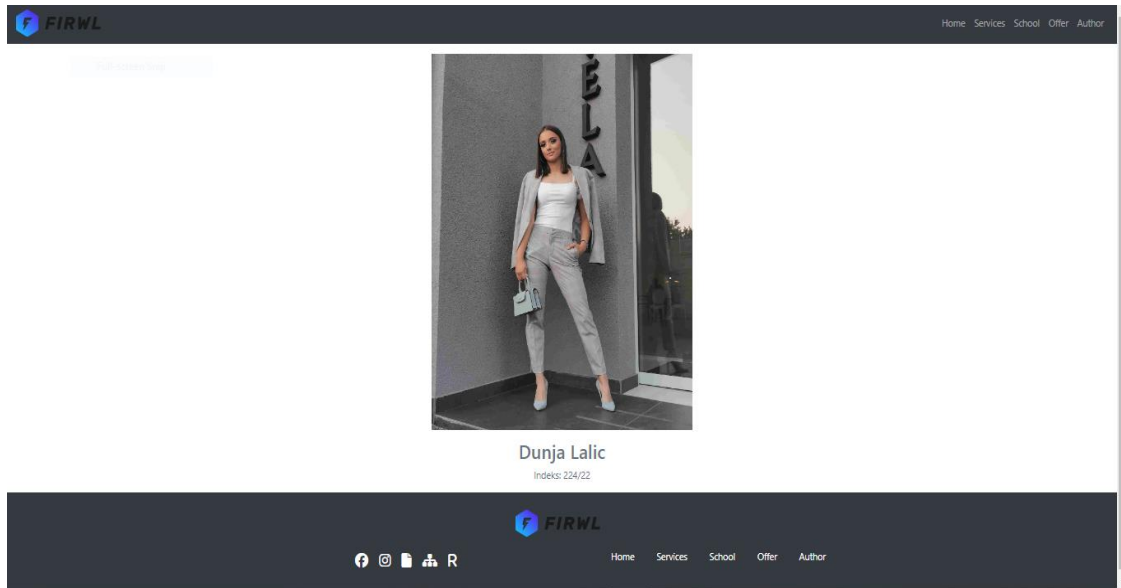

-Konačna provera klikom na dugme "Buy": Kada korisnik klikne na dugme "Buy", vrši se konačna provera unesenih podataka. Ukoliko postoje greške, hvataju se pomoću **try** i **catch** bloka, a korisniku se prikazuju odgovarajuće poruke o grešci.

-Dodat je dinamički footer sa navigacionim menijem i linkovima.

-Dugme za povratak na vrh stranice, prvih 20 piksela dugme je sakriveno a zatim se pojavljuje i klikom na njega vraćamo se na sam vrh stranice.

-Na stranici autor je pomocu script taga u html ubacen isiti navigacioni meni I footer kao sto je I na index.html-u iz main.js-a.
